**LaFox, IL, JANUARY 6, 2021:** Richardson Electronics, Ltd. (NASDAQ: RELL) today reported financial results for its second quarter ended November 28, 2020. The Company also announced that its Board of Directors declared a \$0.06 per share quarterly cash dividend.

# Second Quarter Results

Net sales for the second quarter of fiscal 2021 increased 7.0% to \$42.4 million compared to net sales of \$39.6 million in the prior year's second quarter primarily due to higher net sales for PMT and Richardson Healthcare, partially offset by lower net sales for Canvys. Richardson Electronics is an "essential business" and continued operating its manufacturing and distribution businesses on a global basis throughout the pandemic under strict safety guidelines. PMT sales increased by 11.2% from last year's second quarter as a result of higher sales of semiconductor wafer fab equipment specialty products as well as power conversion and RF and microwave components. Power grid tube sales continued to be negatively impacted by the pandemic, however sales of certain product lines increased from the second quarter of fiscal 2020. Richardson Healthcare sales increased \$0.6 million or 28.2% primarily due to a significant increase in demand for the ALTA750 <sup>™</sup> Tubes, which was the highest quantity sold in any quarter. In addition, equipment sales increased in Latin America. Canvys sales decreased by \$1.2 million or 14.7% due to temporary decreased customer demand globally related to COVID-19.

Gross margin improved to 33.8% of net sales during the second quarter of fiscal 2021 compared to 32.0% of net sales during the second quarter of fiscal 2020. PMT margin increased to 34.2% from 31.6% due to a favorable product mix and improved manufacturing efficiencies. Canvys margin as a percent of net sales increased to 35.5% from 32.9% as a result of its product mix. Healthcare margin as a percent of net sales was 25.6% in the second quarter of fiscal 2021 compared to 34.3% in the prior year's second quarter primarily due to under absorbed manufacturing expenses related to tube development and manufacturing improvements.

Operating expenses were \$13.5 million in the second quarter of fiscal 2021 compared to \$13.2 million in the second quarter of fiscal 2020. The increase in operating expenses resulted from higher legal and employee compensation expenses, partially offset by lower travel and consulting expenses. Throughout the pandemic, the Company decided to support its employees through regular merit increases and incentive plans, and by avoiding layoffs or furloughs.

As a result, the Company reported an operating income of \$0.9 million for the second quarter of fiscal 2021 compared to an operating loss of \$0.5 million in the prior year's second quarter. Other expense for the second quarter of fiscal 2021, including interest income and foreign exchange, was \$0.1 million, the same as in the second quarter of fiscal 2020.

The income tax provision of \$0.1 million for the second quarter of fiscal 2021 reflected a provision for foreign income taxes, which was lower than the prior year's second quarter, and no U.S. tax benefit due to the valuation allowance recorded against the net operating loss. Net income for the second quarter of fiscal 2021 was \$0.7 million compared to a net loss of \$0.6 million in the second quarter of fiscal 2020. Earnings per common share (diluted) in the second quarter of fiscal 2021 was \$0.05.

"We were happy with the sales growth in Healthcare, PMG and semiconductor wafer fab equipment products despite the ongoing impact of the coronavirus around the world" said Edward J. Richardson, Chairman, Chief Executive Officer, and President. "We were also pleased with the significant free cash flow generated during the quarter reflecting our commitment to carefully control expenses and capital expenditures" he concluded.

- Operating expenses increased to \$26.5 million for the first six months of fiscal 2021, compared to \$26.0 million for the first six months of fiscal 2020.
