

Sidoti & Company Virtual Small-Cap Investor Conference

March 22-23, 2023
NASDAQ: RELL

Forward Looking Statement

This overview includes certain “forward-looking” statements as defined by the Securities and Exchange Commission. Statements regarding the Company’s business which are not historical facts represent “forward-looking” statements that involve risks and uncertainties. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see Item 1A, “Risk Factors” in the Company’s Annual Report on Form 10-K. The Company assumes no responsibility to update the “forward-looking” statements in this overview as a result of new information, future events, or otherwise.

ENGINEERED SOLUTIONS

Richardson Electronics (NASDAQ: RELL) designs and manufactures more than 60% of the products it sells for power, microwave, and imaging solutions to industries worldwide.

Technical expertise and “engineered solutions” based on our core engineering and manufacturing capabilities

Value added solutions through design-in support, system integration, prototype design and manufacturing, testing, logistics, and aftermarket technical service and repair

Global infrastructure and support to serve customers wherever they are located

Key Facts & Figures

FY2023 Q3 Preliminary Results*

Sales: \$70m+ (+27% YoY)	Backlog: \$175.1m (Flat YoY)	Op. Income: \$7.6m (+110% YoY)	Op. Margin: 10.8% (+420 bps YoY)
---------------------------------------	---	---	---

FY2023 6 mos. Sales:
\$133.5 million
(+23.9% YoY)

FY2023 6 mos. Net Income:
\$0.83 per diluted share
(+66.0% YoY)

Strong Balance Sheet:
Q2 FY23 cash and investments
of \$31.1 million and no debt

Certified Experts
ISO 9001:2015
ISO 13485: 2016 Certified

480+ Employees
Over half in sales, engineering
and product management

Global Customers
Over 20,000 worldwide
OEM and end-user customers

Headquarters:
LaFox, Illinois

RELL is Global
60+ locations worldwide
with legal entities in
24 countries

**On March 21, 2023, Richardson Electronics issued a press release with preliminary financial results, subject to final review, for its third quarter ended February 25, 2023, including net sales, backlog, and operating income. This business update was provided to facilitate more open conversations with the investment community at a virtual investor conference on March 22 and March 23, 2023. Richardson Electronics will report FY23 Q3 results on April 5, 2023, and will provide more detail on its recent performance and outlook at that time.*

Our Business Units

Power & Microwave Technology (PMT)

- YTD Revenue: \$85.9 million
- Power grid and microwave tubes (EDG)
- Power management for 5G (PMG; started in 2014)
- In-house manufacturing and partnering with leading technology suppliers
- Global engineering and design support
- Key supplier to semiconductor industry

Green Energy Solutions (GES)

- YTD Revenue: \$20.8 million
- Designs and manufactures key products for the fast-growing energy storage market and power management applications
- Leverages existing global infrastructure and expertise
- Products for numerous green energy applications such as wind, solar, hydrogen, EVs, and synthetic diamonds

Healthcare

- YTD Revenue: \$6.2 million
- CT and MRI replacement tubes
- Diagnostic imaging replacement parts
- CT service training and technical support
- P3 Service Contracts for managing maintenance and repair costs
- State of the art manufacturing facility

Canvys

- YTD Revenue: \$20.5 million
- Custom display solutions for healthcare, industrial, retail and transportation applications
- All-in-one computer display solutions
- Engineering design and support

A Legacy of Engineered Solutions

A Future of Innovation

Power Grid Tubes

CW Magnetrons

**Ignitrons &
Thyratrons**

**Microwave
Generators**

Pulse Magnetrons

Ultracapacitors

**CT Replacement
Tubes**

**Refurbished CT
Systems**

**Custom OEM

**All-In-One
Computer Solutions**

Local Service Supported Through Extensive Network of Over 60 Global Locations

FY2023 YTD Sales by Geography

Sophisticated Global Infrastructure

- More than 60 sales offices & stocking locations
- Global field engineering support including 80 RF and Microwave and CT engineers for leading technology suppliers
- Service and repair supported by local presence
- IT Infrastructure supports global visibility into real time inventory, quote and orders
- Information shared across organization to identify opportunities and facilitate design wins

Global Logistics and Supply Chain Capabilities

- Importer of record in 24 countries with international distribution hubs in North America, Asia, and Europe
- Shipment to any location worldwide in one to three business days
- Transactions in local language, and local currency
- Maximum flexibility including small quantity orders
- ECCN items flagged for export control

Strategy Supported by Strong Core Business, New Products and New Markets

Management has created a strategic plan focused on driving growth and creating sustainable value for shareholders

Growth supported by strong core business, 75 years of engineering capabilities, and global platform

Strategy focused on leveraging core engineering capabilities to expand product lines into large, fast growing global markets

Global footprint supports customers and maintains strong strategic partnerships with leading manufacturers

New markets and applications support significant expansion to the Company's growth opportunities

Growth Opportunities and Focus:

Richardson's Strategy Aligned with Compelling Market Dynamics

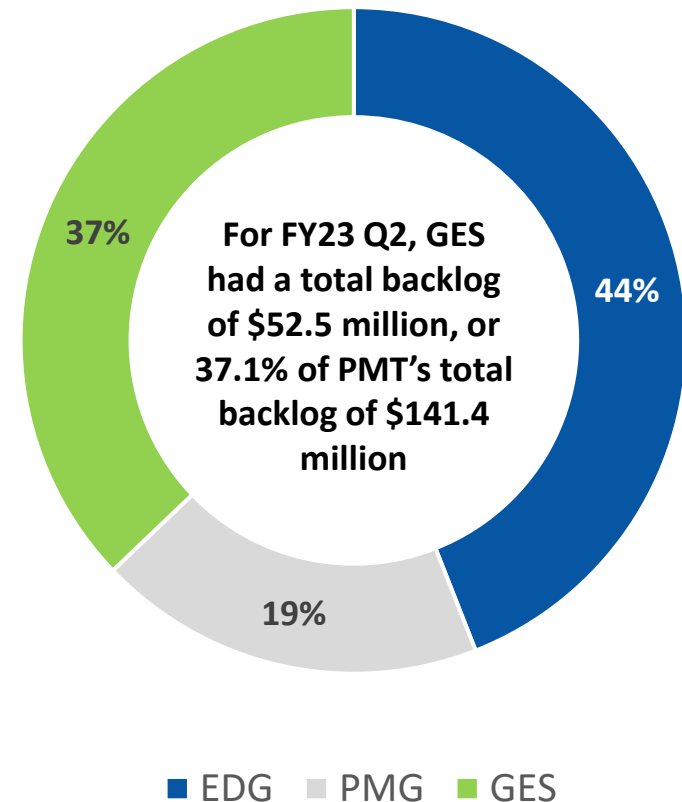

Market	Market Driver / Update	Richardson Opportunity
 Semiconductor	<ul style="list-style-type: none">Semiconductor capex cycle expected to remain strong over the near-termLAM Research, a RELL semiconductor customer, expects demand to drive another year of capex spending growth in 2023	<ul style="list-style-type: none">Products support the global semiconductor wafer fab equipment market+50% of sales relate to deposition which is used for replacement of tools and existing wafer fabs
 Manufacturing	<ul style="list-style-type: none">New applications are supporting growth in microwave tubes and magnetronsExamples include emerging markets such as synthetic diamonds, hydrogen, and building materials	<ul style="list-style-type: none">RELL is one of the few remaining tube manufacturers and engineering companiesFor example, RELL's 915 megahertz magnetrons up to 100 kilowatts are being used for producing hydrogen
 Power Management/ Alternative Energy	<ul style="list-style-type: none">Growing opportunities to transition legacy lead acid battery applications to longer-lasting, more environmentally friendly, technologies	<ul style="list-style-type: none">Wind turbine market with ultracapacitor battery modulesLithium-ion phosphate battery modules for electric train enginesWireless base station, and critical facility markets
 Healthcare	<ul style="list-style-type: none">Very few replacement options for CT tubesOEMs charge high prices for tubes and parts if hospital is not covered by expensive OEM service contract	<ul style="list-style-type: none">Helping customers improve efficiency and deliver better clinical outcomes while lowering the cost of healthcare delivery\$10 billion estimated global opportunity for aftermarket for diagnostic imaging parts and service

Green Energy Solutions (GES) Business Unit Supports Massive Growth Opportunity

GES Overview

- Sales transferred from PMT:
 - Alternative energy, energy storage, EV, power generators
 - YJ1600—diamond manufacturing
 - Fusion research, sustainable goods manufacturing, hydrogen production
- **Estimated FY23 Sales: \$40+ million**
- Growth rate 15-20% per year
- Blue-chip customer base:
 - Nextera Energy
 - Progress Rail (Caterpillar)
 - Union Pacific Railroad
 - T-Mobile
 - Northwestern Medical
 - Siemens

Strong Total PMT Backlog

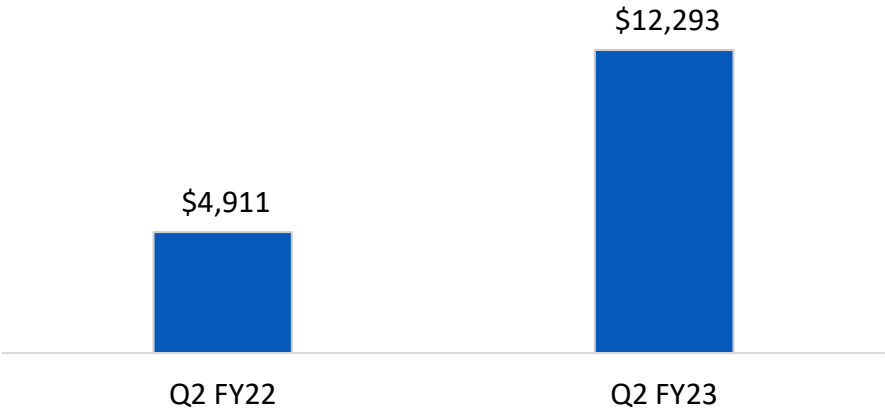

GES Highlights

- Growth in ULTRA 3000 and other related product sales into the wind turbine industry
- New EV applications, power management, and energy storage
- Increase demand for YJ1600 as synthetic diamond manufacturers continue to experience high demand
- Growing partnership with Progress Rail a Caterpillar Company for production of lithium iron phosphate batteries for use in electric locomotive
- New product announcements scheduled for first half of calendar 2023

GES Sales (\$ in 000s)

Second Quarter Sales Up 150.3% YoY

ULTRA3000® Growth Opportunity

Years of experience utilizing and distributing ultracapacitor technologies

- Created specifically for replacement market within wind turbine generators (WTG)
- Patented product with more than 20 protected embodiments

Significant benefits to customers

- Estimated lifetime of 15+ years
- Direct replacement for acid/lead batteries and no hazardous chemicals
- Enhances reliability of PEM

Massive opportunity

- Each turbine blade has power requirements
- Global TAM for GE WTG's alone is \$370 million
- Currently working on PEM systems for other WTG

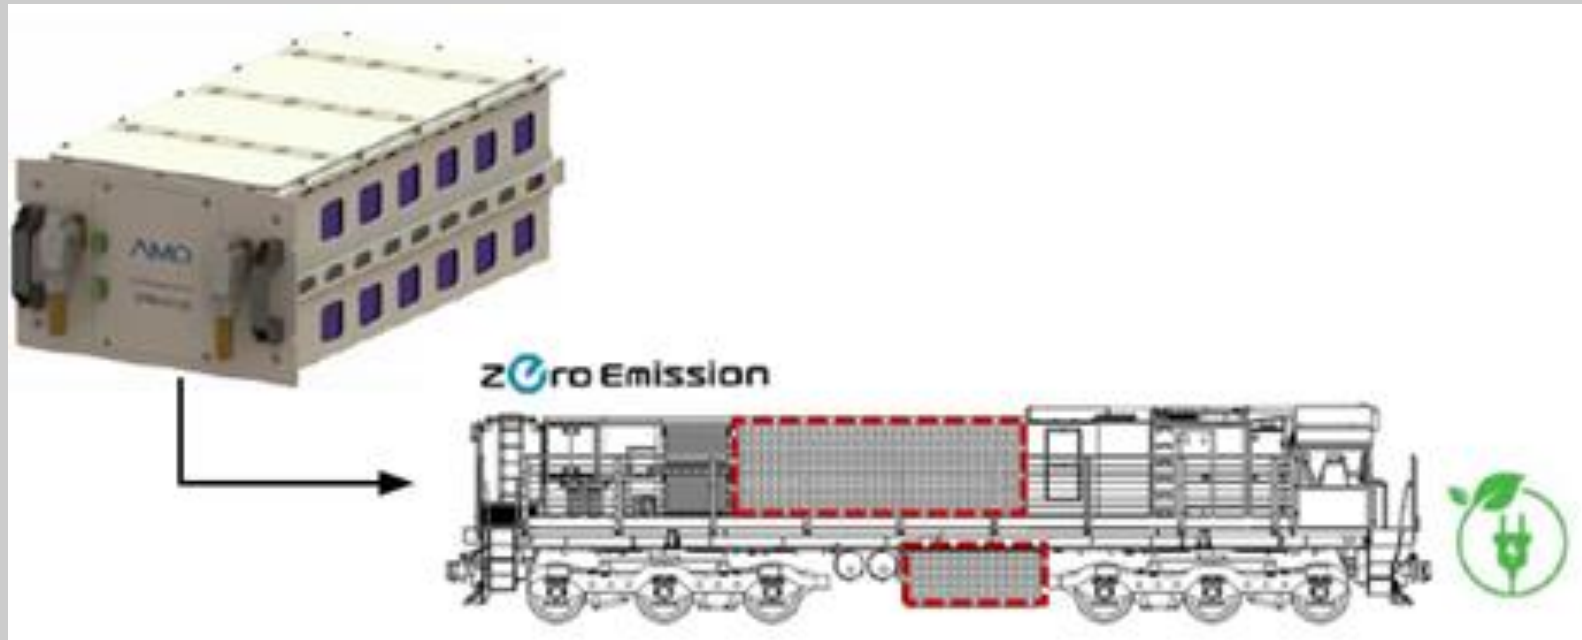

Rapid adoption

- Product from conception to > \$10 million in shipments and backorders in < 14 months

Auxiliary power is needed to control the pitch and rotation of wind turbine blades. Richardson Electronics ULTRA3000® Pitch Energy Module (PEM) is an ultracapacitor-based plug-and-play replacement for batteries within wind turbine pitch systems.

New Product Launch: Lithium Iron Phosphate Battery Modules For EV-Electric Locomotives

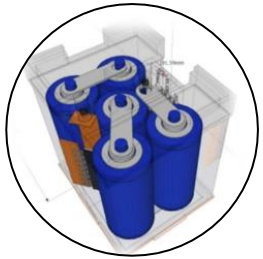

Designed, manufactured
and supported in
LaFox, IL

“Green” Benefits:
Replaces diesel electric engine
Fuel saving and reducing emissions
Silent and less maintenance

Design wins with
Progress Rail/Caterpillar

Multi-million dollar
shipments expected in
2023

BSE Gen-Start Growth Opportunity

Leveraging ultracapacitor expertise to create replacement modules for lead acid batteries in generators

- Patent-pending technology
- Product launched in CY22

Initial application focused on wireless base stations

- In 2019 there were 395,562 cell sites, approximately 59,000 or 15% have existing generators
- Major wireless carriers expect to add 25,000-30,000 base stations in North America between 2021-2025
- Target customers such as AT&T, T-Mobile, Verizon

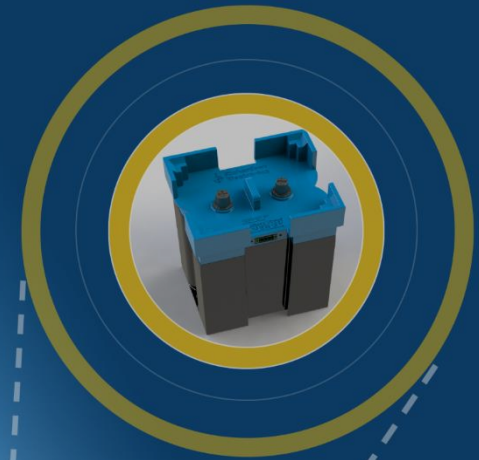

Critical facilities support additional applications

- U.S. Hospitals total 6,090
- U.S. Fire Stations/Municipalities total 58,150
- May use more than one per site

Large initial opportunities

- SAM - Wireless Base Stations \$42 million
- SAM - Critical Facilities \$23 million
- Long-term TAM ~\$250 million

Power & Microwave Technology (PMT) Opportunity

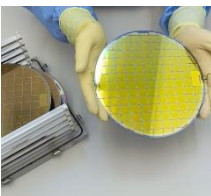

The leading distributor of power grid and microwave tubes and related consumable parts

- **Electron Device Group (EDG)** which includes legacy tube business and semiconductor wafer fab
- **Power and Microwave Group (PMG)** which includes discrete semiconductor components
- Global provider of Engineered Solutions focusing on industrial tube manufacturing, microwave generators, power supplies and customer specific parts and assemblies
- Highly specialized in demand creation for new technologies
- We partner with manufacturers of leading edge and disruptive technologies. These technologies drive the latest innovations for our customers.

Bringing key technologies and solutions to the world for power, microwave niche applications

Power Conversion

Semiconductor

Defense

Communications

Marine

Avionics

Scientific & Medical

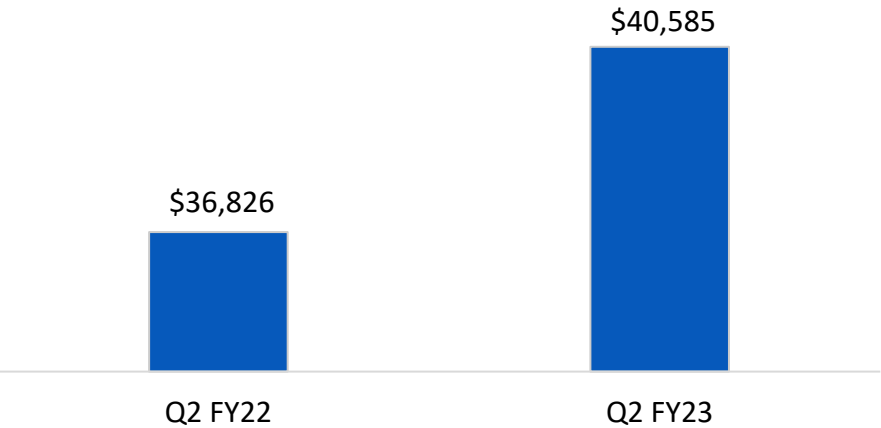

Industrial

PMT Highlights

- High growth in demand for Electron Device Group (EDG)
- Semiconductor wafer fab equipment benefitting from market growth; chip shortages create new wafer fabrication installations
- Power & Microwave Group (PMG) continues to have excellent sales growth related to the RF/wireless infrastructure business.

PMT Sales (\$ in 000s)

Second Quarter Sales Up 10.2% YoY

Richardson Healthcare provides OEM quality replacement parts and training to support in-house clinical engineering and third-party equipment maintenance companies.

Richardson Healthcare's CT Tube Programs provide exact form and function replacements for popular OEM CT scanners helping reduce healthcare costs by offering an alternative to higher cost OEM parts.

The Company has invested over \$35 million in its Healthcare SBU, creating a best-in-class, value-added CT Tube and CT refurbishment platform.

Richardson Healthcare first launched the ALTA750D in May 2018, followed by the ALTA750G in 2022, and expects to launch a Siemens repaired CT Tube Program in 2023.

\$10 billion estimated global opportunity for aftermarket diagnostic imaging parts and service

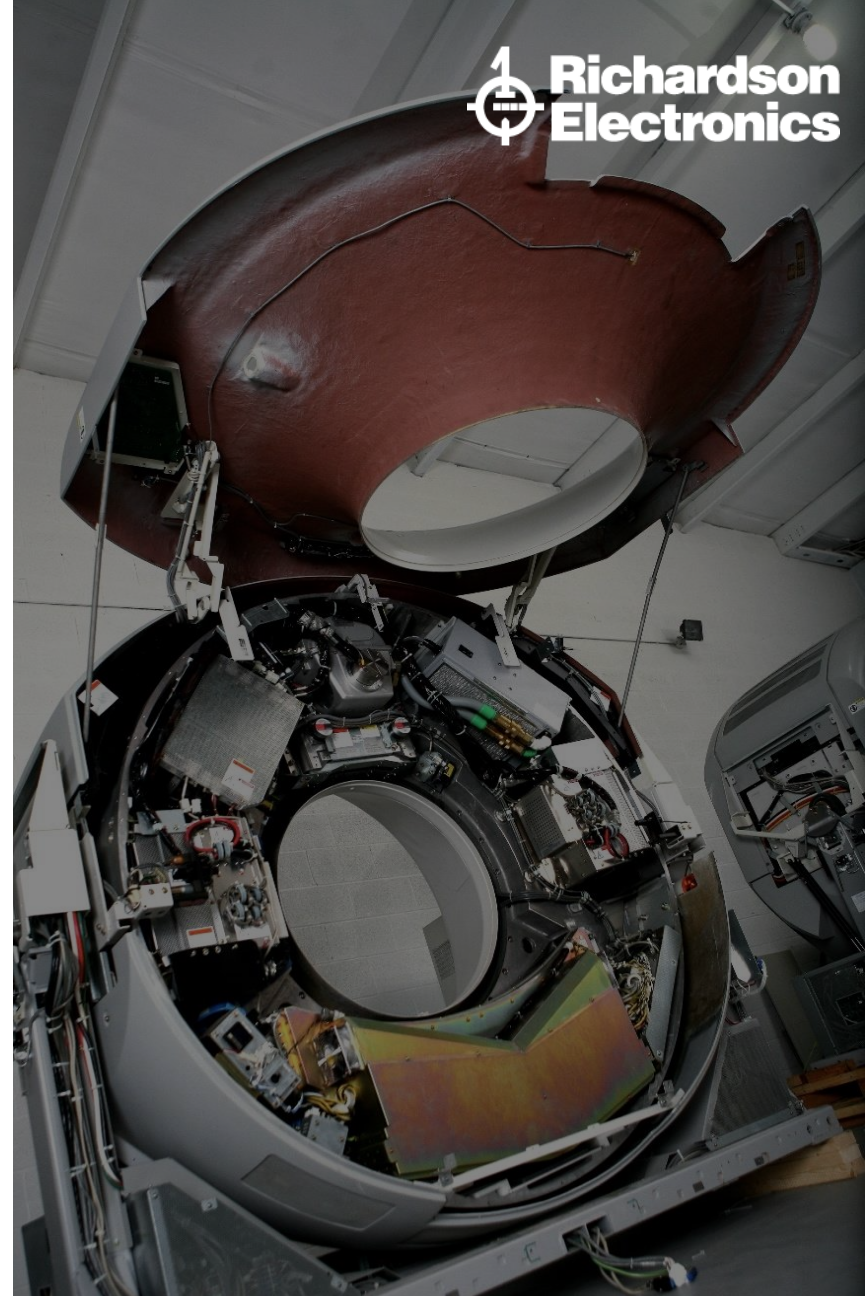

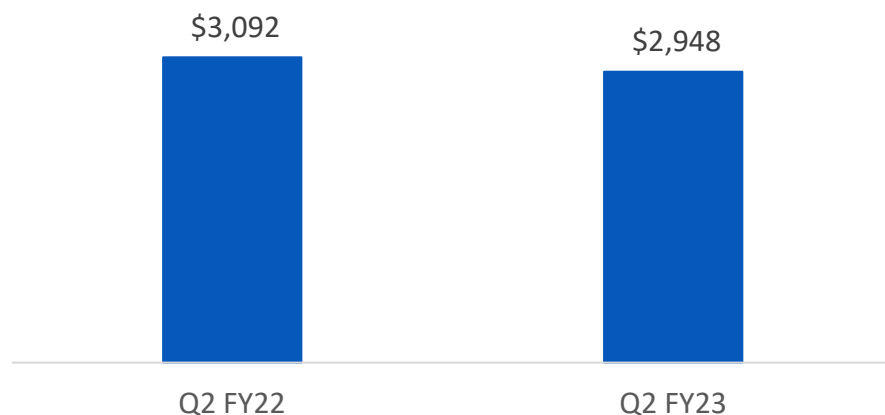

Healthcare Update

Healthcare Highlights

- Richardson Healthcare Q2FY23 sales were down slightly versus Q2FY22, due to a shipping delay that transferred the revenue of two ALTA tubes from Q2FY23 to Q3FY23.
- Additional tubes will drive revenue growth and margin improvement as factory utilization rate improves.
- The ALTA750D and G CT Tubes had strong demand in China.
- The Straton Z tubes began selling as betas in the Americas.
- The Siemens MX series will launch in the first half of CY 2023.

Healthcare Sales (\$ in 000s)

Second Quarter Sales Down 4.7% YoY

Canvys is a global value-added integrator and manufacturer that specializes in creating comprehensive visual technology solutions for OEMs.

Canvys is focused on providing small run, smart displays for specialized applications - often for demanding environments.

Canvys brings together a deep understanding of visual technologies, wide-ranging capabilities and a worldwide network to create complete solutions for OEM customers.

Expertise manufacturing display sizes from 5" to 82", with custom enclosures, touchscreen integration, and all-in-one computer solutions.

2,000+ global blue-chip customers rely on Canvys to supply leading display solutions for their unique needs

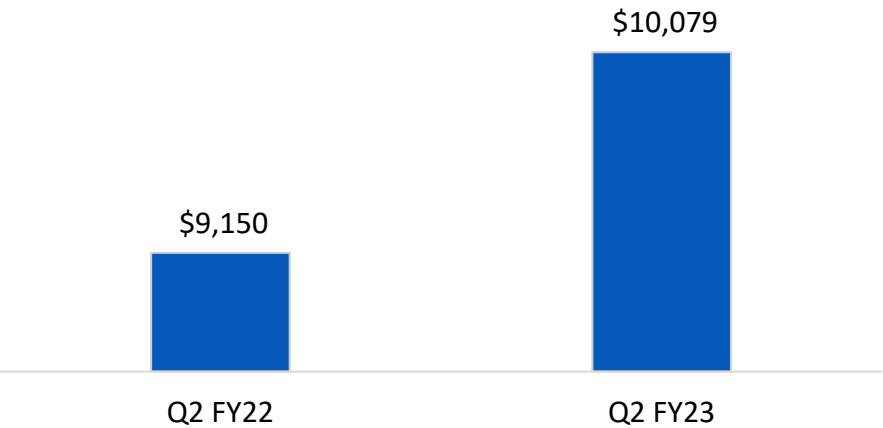

Canvys Update

Canvys Highlights

- Demand for blue-chip medical and industrial OEM systems driving growth
- The 10.2% Q2 FY23 YoY increase in sales was due to strong customer demand in North America
- Healthy backlog, which will support strong sales throughout fiscal 2023 and into fiscal 2024

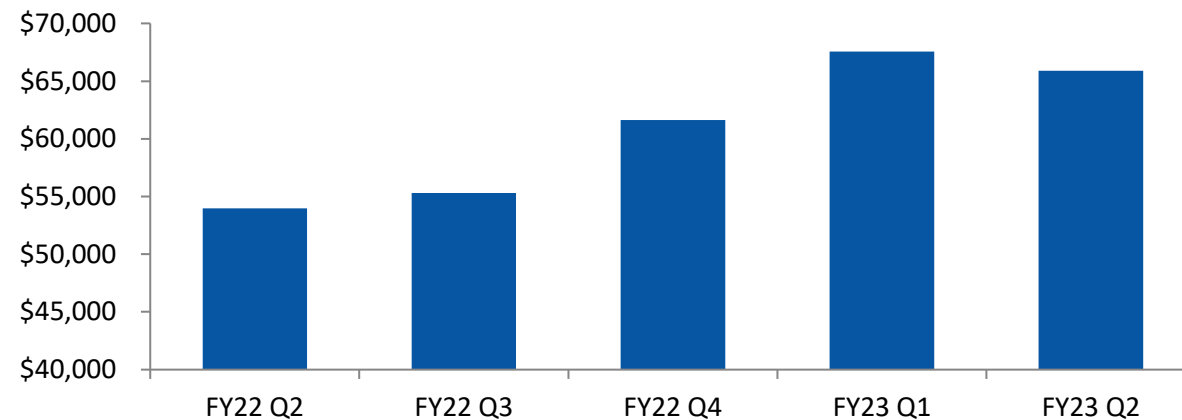

Canvys Sales (\$ in 000s)

Second Quarter Sales Up 10.2% YoY

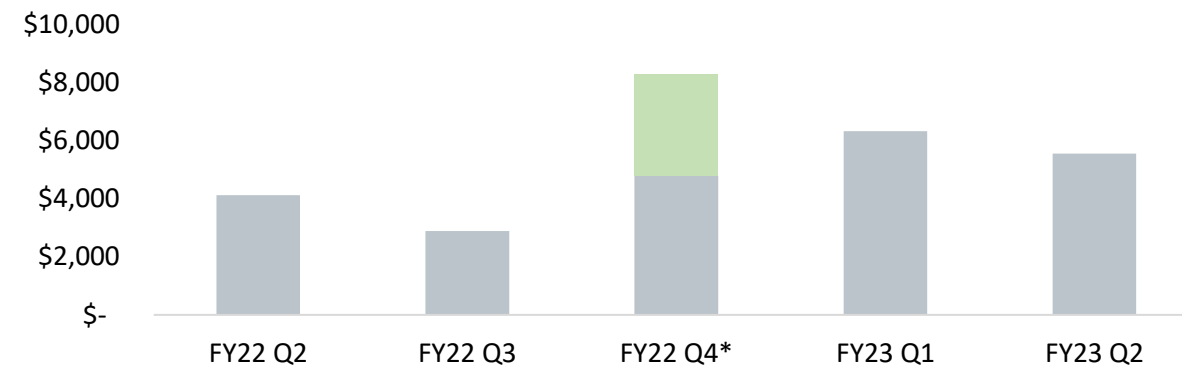

Financial Results

Total Sales
(\$ in thousands)

- Net sales for Q2 FY2023 increased to \$65.9 million, up 22.1% compared to net sales of \$54.0 million in the prior year's Q2 due to higher net sales in PMT, GES, and Canvys, partially offset by slightly lower sales in Healthcare

GAAP Net Income
(\$ in thousands)

- Net income improved 34.6% on a YoY basis as a result of higher sales, improvement in gross margin, and controlled operating expenses
- Operating income was \$7.2 million, or 10.9% of net sales for Q2 FY2023 as compared to \$4.5 million or 8.4% of net sales in Q2 FY2022

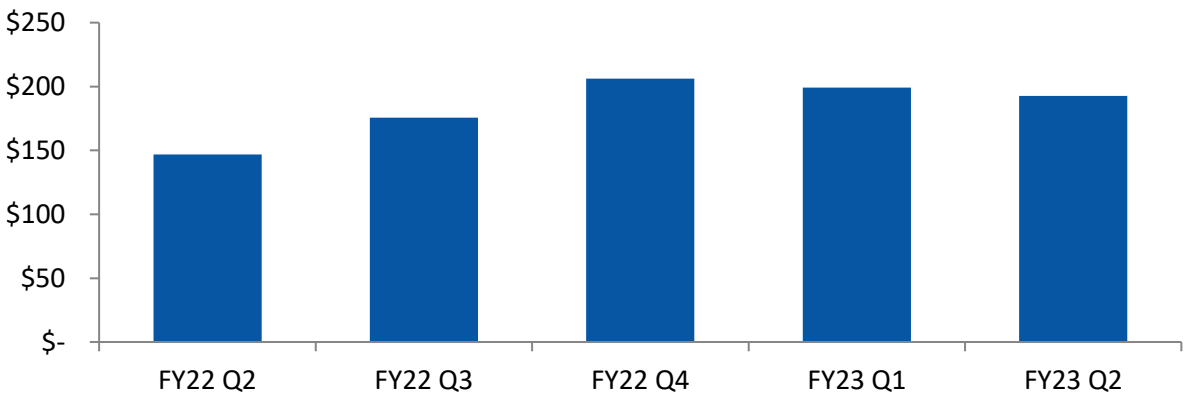

* In FY22 Q4, RELL received an income tax benefit of \$3.5 million from a \$4.0 million partial reversal of the tax valuation allowance

FY2023 Q2 Balance Sheet and Cash Flow

- Strong balance sheet with no debt, and \$31.1 million in cash and cash equivalents, and investments
- Allocated \$0.8 million of capital in Q2 FY2023 to support the company's regular cash dividend
- The company continues to invest in working capital to support its growth initiatives across its four business units
- Most of the inventory increase was to support the growth in GES and other key growth initiatives
- Capital expenditures were \$1.3 million in Q2 FY2023 primarily related to investments in the Company's manufacturing business, facilities, IT System, and Healthcare business

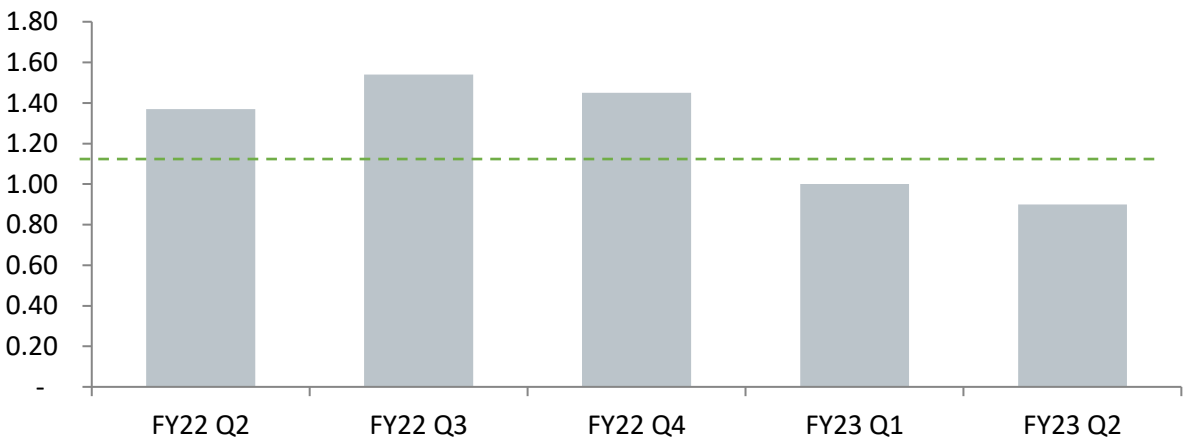

(\$s in 000s)	November 26, 2022	May 28, 2022
Cash and Cash Equivalents and Investments	\$31,106	\$40,495
Accounts Receivable	\$34,880	\$29,878
Inventories, net	\$97,434	\$80,390
Total Assets	\$193,101	\$179,819
Total Debt	\$0	\$0
Total Liabilities	\$45,013	\$43,972
Shareholders' Equity	\$148,088	\$135,847

Total Company Backlog
(\$ in millions)

- Backlog at the end of Q2 FY2023 was \$192.6 million up 31.1% YoY

Total Company Book-to-Bill

- Current book-to-bill primarily impacted by timing of new GES orders and current semiconductor market demand

A Legacy of Engineered Solutions.
A Future of Innovation.

Appendix

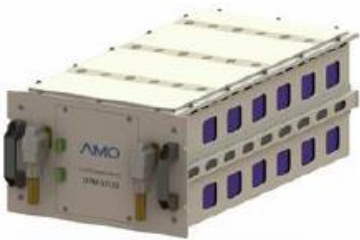

Detailed Company Overview

Strategic Business Unit Overview: GES

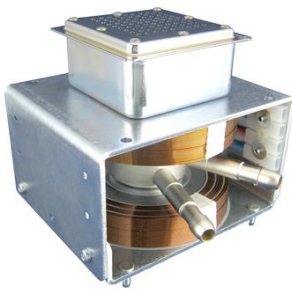

- Newest strategic business unit formed because of our exceptional growth in demand for green energy applications (sales previously including in PMT segment)
- Green solutions is key to our long-term growth strategy
- Rapidly expanding line of energy storage products for various green energy applications, and we plan to announce several new products in the second half of FY23
- Capitalizing on emerging markets trends through the combination of key technology partners and our engineered solutions capabilities, while leveraging our existing global infrastructure

Product and Services Highlights

Lithium Module and Superstructure for EV Locomotives

YJ1600

ULTRA3000®

Applications & Markets

- Electric Vehicles
- Hydrogen
- Solar
- Sustainable building materials
- Synthetic diamond
- Wind

Select Customers

Strategic Business Unit Overview: PMT

- The leading distributor of power grid and microwave tubes and related consumable parts (EDG Group)
- Power and Microwave Group (PMG) brings key semiconductor and passive technologies for power and microwave niche applications
- Partnering with manufacturers of leading edge and disruptive technologies to drive the latest innovations for customers
- Organic growth focused on product line expansion, leveraging 20,000+ global customer relationships, and manufacturing growing resources and capabilities
- Additional growth opportunities supported by partnerships and potential acquisitions

Applications

- Broadcast transmission
- CO2 laser cutting
- Diagnostic imaging
- Dielectric/induction heating
- High energy transfer
- High voltage switching
- Plasma
- Power conversion
- Radar
- Radiation oncology
- Microwave

Markets

- 5G
- Aviation
- Broadcast
- Communications
- Industrial
- Marine
- Medical
- Military
- Semiconductor

Product and Services Highlights

EDG Products

RF & Microwave Products

Power Management Products

Strategic Business Unit Overview: Healthcare

- Richardson Healthcare helps lower the cost of healthcare delivery with high value parts, upgrades and training solutions for hospitals and third-party service providers
- Healthcare manufactures, repairs, refurbishes and distributes high value replacement parts and equipment for the healthcare market
- Customers include hospitals, medical centers, asset management companies, independent service organizations and multi-vendor service providers

Supported Brands

- Canon (Toshiba)
- Siemens
- Hologic
- Richardson Healthcare
- GE
- Philips

Select Customers

Product and Services Highlights

CT Tubes

Parts

Refurbished CT Systems

Training and Service

Strategic Business Unit Overview: Canvys

- Canvys develops custom display and All-In-One computer solutions for Original Equipment Manufacturers (OEMs). We evaluate each customer's unique needs and craft the right solution
- Key capabilities supported by local collaborative approach with customers, compliance with medical device regulation, and global logistics capabilities
- ISO certification provides products that comply with the most demanding quality standards throughout the entire delivery process
- Manufacturing fully customized displays that pair revolutionary technologies with solutions for individual customer needs

Applications

- Air Traffic Control
- Broadcast
- Dental Care Units
- Endoscopy Systems
- Food Industry
- Manufacturing
- Marine
- Medical Monitoring
- Ophthalmology
- Transportation
- Vending Machines / Kiosks

Select Customers

Product Highlights

5" to 82" Custom Displays

All-in-One Computer Solutions
